To help you understand our mission and content requirements, here is an overview of CFF. The foundation was established by President José Ramos-Horta on December 18, 2025. Our initiatives are built upon three core pillars:

1. Education

- **Food Subsidy Program:** Supporting students from underprivileged families.

- **Global Scholarships:** Providing full scholarships for undergraduate and postgraduate studies at prestigious international universities.

2. Sustainable Development

- **Market Access:** Showcasing Timor-Leste's products and services to the global market through a CFF online portal.
- **Bed & Breakfast:** A community-led program to help rural communities participate in tourism.
- **Renewable Energy:** Driving the vision for Timor-Leste to become the first nation completely powered by renewable energy.
- **Digital Payment:** Promoting digital payment systems as an essential tool for rural development.

3. Initiative for Peace and Democracy

- **Myanmar Program:** Advocating for the Five-Point Consensus as the foundation to reintegrate Myanmar into the ASEAN community, and calling for the immediate, unconditional release of Aung San Suu Kyi.
- **ASEAN Centre of Arbitration:** Positioning Timor-Leste to utilize its unique experience to help resolve regional disputes, particularly regarding the upcoming ASEAN-South China Sea Code of Conduct.

Please let us know what the next steps are or if you require any additional materials from our end to begin.

Best regards,
